

Michael Macri, MBA
Customer Success Engineering & Technology Leader

Sr. Manager, Customer Success Engineering | GitLab | March 2026 - Present | United States / Remote

Technology and customer success engineering leader with 25+ years of experience building technical teams, customer success programs, solution engineering motions, partner ecosystems, and enterprise governance initiatives. Currently leading Customer Success Engineering at GitLab, focused on scalable technical engagement and helping customers achieve measurable value from modern DevSecOps platforms. Proven history connecting technical adoption with customer outcomes across GitLab, ServiceNow, and VMware.

Experience

Sr. Manager, Customer Success Engineering
GitLab | March 2026 - Present | United States / Remote

- Lead Customer Success Engineering focused on helping customers achieve measurable technical and business value from GitLab's DevSecOps platform.
- Lead and develop Customer Success Engineers who provide technical expertise, best-practice guidance, workshops, webinars, hands-on labs, and strategic guidance throughout the customer lifecycle.
- Focus on scaling technical customer success through high-value human engagement, repeatable technical programs, digital enablement, customer segmentation, and one-to-many delivery models.
- Partner across Customer Success, Sales, Renewals, Product, Engineering, Support, and other organizations to connect customer technical outcomes with adoption, retention, expansion, and long-term value realization.

Principal Consultant
Momentum Edge Consulting | May 2025 - Present | Remote

- Independent consulting and advisory work supporting regulated public sector and enterprise customers with adoption readiness, operating-model alignment, and technical value realization.
- Deliver executive-ready assessments and roadmaps that clarify current state, target state, risk, and prioritized remediation.
- Support practical advisory work across GRC, AI governance, cybersecurity compliance, ServiceNow IRM, and technology operating models.

Manager, Solution Advisory - Legal Ethics & Compliance
ServiceNow | Dec 2021 - May 2025 | Remote

- Led post-sales solution advisory across Sales, Security, Legal, and Product to drive platform adoption, governance maturity, and enterprise risk reduction for regulated customers.
- Standardized policy-to-process workflows across compliance frameworks, improving consistency and adoption across customer and internal teams.
- Owned AI/ML governance enablement as an SME and defined guidance used for ServiceNow's first enterprise AI usage policies.

Progressive Customer Success, Solution Engineering & Partner Leadership Roles

VMware | 2011 - 2021 | Seattle, Chicago, San Francisco

- Built and led dispersed post-sales teams across TAM, Customer Success, and Product Specialist functions, aligning technical success with retention and expansion objectives.
- Led partner solutions engineering for a major channel partnership and created repeatable enablement, workshops, roadmap sessions, and solution playbooks.
- Led GSI and strategic partner motions across the Americas, aligning technical enablement, solution strategy, product collaboration, and commercial execution.

Capability Areas

- Customer Success Engineering & Leadership: CSE leadership, customer technical outcomes, adoption, technical success planning, coaching, customer health, retention/expansion alignment, scaled customer success.
- DevSecOps & Platform Adoption: GitLab, DevSecOps, CI/CD, software delivery, security, platform consolidation, maturity, technical adoption, value realization.
- Solution Engineering & Technical Enablement: solution engineering, technical advisory, workshops, labs, enablement, architecture, demonstrations, technical discovery, business outcome alignment.
- Partner Ecosystems & GTM: GSI, channel, co-sell, alliances, partner enablement, joint business planning, routes to market, sales alignment.
- AI, Risk & Governance: AI governance, responsible AI, GRC, security, compliance, enterprise risk, policy, controls, automation.

Selected Historical Impact

- \$900M enterprise risk reduction | ServiceNow governance and compliance advisory.
- 250% pipeline growth | VMware partner and technical enablement frameworks.
- 20% renewal growth | VMware customer success and adoption programs.
- 83 NPS | VMware post-sales technical engagement, 20 points above target.
