

Michael Macri, MBA

TECHNOLOGY & CUSTOMER SUCCESS ENGINEERING LEADER

Senior Manager, Customer Success Engineering – AMER | GitLab | March 2026 - Present | Remote
mikemacri.com | linkedin.com/in/mikemacri

PROFESSIONAL SUMMARY

Technology and Customer Success Engineering leader with experience building distributed post-sales teams, operating models, partner ecosystems, and enterprise governance initiatives across GitLab, VMware, and ServiceNow. Connects technical adoption, customer priorities, and commercial context so teams can focus their expertise where it matters most.

SELECTED CAREER IMPACT

\$50M+	Two record-setting partner-led deals; VMware Americas alliance and co-sell leadership.
\$440M	VMware's largest channel-partner business across multiple routes to market.
20% + 83 NPS	Renewal growth and customer experience under VMware regional Customer Success leadership.
\$900M	Broader ServiceNow governance program's quantified enterprise risk exposure.

PROFESSIONAL EXPERIENCE

Senior Manager, Customer Success Engineering – AMER

GitLab

March 2026 - Present | Remote

Lead the AMER Customer Success Engineering team, owning the post-sales technical operating model across adoption, early risk identification, expansion signals, and renewal outcomes. My job is deciding where limited technical coverage goes and building the systems that make that decision repeatable rather than instinctive. Scope: an AMER private-sector portfolio.

- Helped build and launch the CSE Assigned motion — proactive, named technical coverage for accounts that do not have a Customer Success Manager. Authored the operating handbook, the inbound-account and exit processes, and the readiness framework that gated go-live against defined capability criteria.

- Lead, coach, and develop the AMER Customer Success Engineering team, and authored the Associate-to-Intermediate development path now used for career progression across the function: competency scorecard, evidence standards, and promotion preparation grounded in sustained performance rather than activity volume.

- Built the team's book-of-business reporting layer, sourced live from the CS platform — focus accounts, engagement coverage, renewal runway, and pool case work — replacing manual roll-ups as the basis for weekly prioritization.

Principal Consultant

Momentum Edge Consulting

May 2025 - Present | Remote

Limited Independent Advisory Work / Personal Consulting Practice

- Provide concise assessments, roadmaps, workshops, and implementation playbooks for regulated public-sector and enterprise organizations.

Senior Manager, Solution Advisory - Legal Ethics & Compliance

ServiceNow

Dec 2021 - May 2025 | Remote

Led post-sales solution advisory within Legal, Ethics & Compliance, connecting governance requirements to ServiceNow IRM, automation, policy workflows, controls, and dashboards.

- Partnered across Sales, Legal, Ethics, Compliance, Information System Security, Automation Engineering, Security, and Product.

- Contributed to a broader governance program addressing approximately \$900M in quantified enterprise risk exposure; the figure represents program context, not personal savings or revenue.

- Owned AI/ML governance enablement as an SME; shaped ServiceNow's first enterprise AI usage policies and translated regulatory, security, and risk requirements into reusable policy and control models.

Partner Business & Technical Alliance Director - Americas

VMware

Nov 2019 - Dec 2021 | San Francisco, CA

Led Americas GSI and strategic-partner motions across technical enablement, joint solutions, and co-sell execution.

- Built joint business plans and managed co-sell execution, contributing to two record-setting \$50M+ partner-led deals and sustained target overperformance.
- Aligned Product and Engineering on integrations and go-to-market plans; equipped field teams with repeatable playbooks, including VMware on AWS with DXC.

Partner Staff Solutions Engineer Leader

VMware

Dec 2017 - Dec 2019 | Chicago, IL

Led Solution Engineering for VMware's largest channel partnership (CDW).

- Supported a \$440M partner business through multi-tiered routes to market while increasing pipeline capture 20%, certifications 200%, and solution adoption 20% in the first year.
- Designed partner training, workshops, and roadmap sessions; coached solution architects and increased partner-driven pipeline 21%.

Senior Manager, Customer Success, TAMs & Product Specialists - West Coast Regional Practice

VMware

Nov 2014 - Dec 2017 | Seattle, WA

Built and led three dispersed regional post-sales teams spanning TAMs, Customer Success, and Product Specialists.

- Built customer-health, adoption, and success-planning practices that contributed to 20% renewal growth and an 83 NPS, 20 points above target.
- Connected technical success with customer adoption, expansion, retention, and business priorities alongside Sales and Post-Sales leadership.

Staff Technical Account Manager / Customer Success Manager

VMware

Dec 2011 - Nov 2014 | Seattle, WA

Managed strategic enterprise accounts, aligning technical outcomes to business priorities, adoption, roadmaps, and services attach.

CAPABILITIES

- Customer & Technical Leadership | Customer Success Engineering, Technical Customer Success, TAM, Solution Engineering, customer health, adoption, retention, and expansion
- Technical & Platform | DevSecOps, CI/CD, AI adoption, cloud, security, enterprise platforms, and technical transformation
- Organizational Leadership | People leadership, coaching, engagement models, cross-functional leadership, portfolio strategy, and repeatable execution
- Ecosystems & Enterprise | Partner alliances, GSI strategy, enterprise governance, risk, compliance, policy, controls, and AI governance

EDUCATION & RECOGNITION

- MBA | Xavier University | Cincinnati, OH
- B.S. Industrial Organizational Psychology | Xavier University | Cincinnati, OH
- Recognition | VMware Partner Excellence - Rockstar MVP; Partner Solutions Engineer of the Quarter; Americas VP Award for Service Delivery Excellence; Technical Account Manager of the Half
