

Michael Macri, MBA

SENIOR CUSTOMER SUCCESS ENGINEERING LEADER

Senior Manager, Customer Success Engineering - AMER | GitLab | 2026 - Present | Remote

LinkedIn: <https://www.linkedin.com/in/mikemacri>

PROFESSIONAL SUMMARY

Senior Customer Success Engineering leader with experience scaling post-sales technical organizations, operating models, and enablement across GitLab, VMware, and ServiceNow. Leads distributed teams and cross-functional programs that connect product adoption, customer health, early risk identification, expansion signals, and renewals to measurable business outcomes. Proven track record building data-driven frameworks and repeatable motions across DevSecOps, AI, cloud, security, and governance environments.

KEY ACHIEVEMENTS

- Customer Success Engineering at Scale - Lead GitLab's AMER Customer Success Engineering scaled motions, defining operating standards and data-driven frameworks that connect technical engagement to adoption, customer health, risk, expansion, and renewal outcomes.
- Scalable Adoption & Commercial Impact - Built repeatable enablement, onboarding, and KPI frameworks across customer and partner ecosystems, contributing to 20% renewal growth, 250% pipeline growth, and sustained platform adoption at VMware.
- Risk, Governance & DevSecOps Outcomes - Delivered cloud-native, security, AI governance, and compliance programs that reduced \$900M in enterprise risk while strengthening platform trust, governance adoption, and long-term value realization.

PROFESSIONAL EXPERIENCE

Senior Manager, Customer Success Engineering - AMER

GitLab

2026 - Present | Remote

Lead Customer Success Engineering across AMER regions, owning the post-sales technical operating model for scaled motions and aligning CSE execution to product adoption, early risk identification, expansion signals, and renewal outcomes.

- Defined and scaled the CSE Assigned Motion, establishing standards for customer engagements, quarterly health assessments, account documentation, and technical engagement to improve consistency and visibility across the customer lifecycle.
- Built data-driven operating and reporting frameworks for account coverage, engagement, renewal runway, customer health, and pooled CSE activity, giving teams and leadership clearer visibility into execution, risk, and technical customer needs.
- Drive cross-functional customer success and GitLab AI adoption initiatives with Sales, Renewals, and regional leadership, aligning technical engagement to at-risk accounts, expansion opportunities, product adoption, and long-term customer value.

Principal Consultant

Momentum Edge Consulting

May 2025 - Present | Remote

Technical advisor to regulated public sector and enterprise customers, focused on post-sale adoption readiness, operating models, and technical value realization.

- Deliver executive-ready assessments and roadmaps that accelerate adoption and decision-making across utilities, government, and regulated industries.
- Create reusable workshops, evaluation checklists, and implementation playbooks that remove adoption barriers and support scalable execution.

Senior Manager, Solution Advisory - Legal Ethics & Compliance

ServiceNow

Dec 2021 - May 2025 | Remote

Led post-sales solution advisory across Sales, Security, Legal, and Product to drive platform adoption, governance maturity, and enterprise risk reduction for regulated customers.

- Standardized policy-to-process workflows across compliance frameworks, improving consistency and adoption across customer and internal teams.

- Owned AI/ML governance enablement as an SME; defined requirements and guidance used for ServiceNow's first enterprise AI usage policies.
- Partnered with stakeholders to translate regulatory obligations into scalable operating models, templates, and enablement playbooks.

Partner Business & Technical Alliance Director - Americas

VMware

Nov 2019 - Dec 2021 | San Francisco, CA

Led GSI and strategic partner motions across the Americas, aligning technical enablement, solution strategy, and customer outcomes with commercial execution.

- Built joint business plans and managed co-sell execution, contributing to two record-setting \$50M+ partner-led deals and sustained target overperformance.
- Aligned Product and Engineering on partner-led integrations and go-to-market plans; enabled field teams with repeatable partner playbooks (e.g., VMware on AWS with DXC).

Partner Staff Solutions Engineer Leader

VMware

Dec 2017 - Dec 2019 | Chicago, IL

Led partner solutions engineering for VMware's largest channel partnership (CDW), focused on scalable enablement, adoption, and pipeline acceleration.

- Partnered with CDW to drive \$440M through multi-tiered routes-to-market, increasing pipeline capture by 20%, certifications by 200%, and solution adoption by 20% in the first year.
- Designed partner training, workshops, and roadmap sessions; coached architects, increasing partner-driven pipeline by 21%.

Senior Manager, Customer Success, TAMs & Product Specialists - West Coast Regional Practice

VMware

Nov 2014 - Dec 2017 | Seattle, WA

Built and led three dispersed post-sales teams (TAMs, Customer Success, Product Specialists) delivering adoption, expansion, and customer value across a regional book of business.

- Built engagement frameworks and program deliverables aligned to customer business metrics, improving NPS by 20 points and driving operational efficiency.
- Partnered with Sales and Post-Sales leadership to align technical success with expansion and retention objectives.

Staff Technical Account Manager / Customer Success Manager

VMware

Dec 2011 - Nov 2014 | Seattle, WA

Managed strategic enterprise accounts, aligning technical outcomes to business metrics, accelerating adoption and roadmap execution, and consistently leading services attach.
