## SENIOR CUSTOMER SUCCESS ENGINEERING LEADER

Senior Manager, Customer Success Engineering - AMER | GitLab | March 2026 - Present | Remote

LinkedIn: <https://www.linkedin.com/in/mikemacri>

### PROFESSIONAL SUMMARY

Senior Customer Success leader building and leading post-sales technical teams across GitLab, VMware, and ServiceNow. Drive enterprise adoption, consumption, customer health, expansion, retention, and value realization through data-driven operating models and partnership with Sales, Renewals, Product, and Engineering. Experienced leading teams and strategic customers across DevSecOps, AI/ML, cloud, security, and governance, translating complex technology into measurable customer and business outcomes.

### KEY ACHIEVEMENTS

- Customer Success Leadership at Scale - Lead and develop a 7-person AMER CSE team supporting multi-million-dollar ARR customers from SMB through Key accounts, connecting adoption, consumption, customer health, expansion, and renewal outcomes.
- Adoption, Expansion & Retention - Built scalable customer and partner success motions contributing to 20% renewal growth, 250% pipeline growth, sustained platform adoption, and a 20-point NPS improvement at VMware.
- AI, DevSecOps & Enterprise Transformation - Lead GitLab AI adoption initiatives and previously owned enterprise AI/ML governance enablement at ServiceNow, combining technical adoption with responsible AI, security, governance, and measurable customer value.

### PROFESSIONAL EXPERIENCE

#### Senior Manager, Customer Success Engineering - AMER

##### GitLab

March 2026 - Present | Remote

Lead a Customer Success Engineering team across AMER supporting private-sector customers across SMB, Mid-Market, Enterprise, Financial Services, and Key accounts. Own post-sales technical engagement across GitLab's subscription and usage-based offerings, aligning product and AI consumption, adoption, customer health, risk, expansion, and renewal outcomes.

- Lead, coach, and develop 7 Customer Success Engineers through performance reviews, ongoing coaching, and operating standards for CTAs, quarterly health assessments, account documentation, and engagement across the customer lifecycle.
- Built data-driven portfolio operating frameworks across ARR, product and AI consumption, customer health, engagement, renewal runway, risk, and expansion signals, enabling leadership to prioritize accounts, mitigate renewal risk, and surface growth opportunities.
- Drive GitLab Duo Agent Platform adoption, strategic account initiatives, and executive escalations with customer and internal executives; partner with Sales, Renewals, and regional leadership on value realization, expansion, renewal risk, and long-term retention.

#### Principal Consultant

##### Momentum Edge Consulting

May 2025 - Present | Remote

Limited independent advisory work through a personal consulting practice, supporting regulated public-sector and enterprise organizations with adoption readiness, operating models, and technical value realization.

- Deliver executive-ready assessments and roadmaps that accelerate adoption and decision-making across utilities, government, and regulated industries.
- Create reusable workshops, evaluation checklists, and implementation playbooks that remove adoption barriers and support scalable execution.

## Senior Manager, Solution Advisory - Legal Ethics & Compliance

ServiceNow

Dec 2021 - May 2025 | Remote

Led post-sales solution advisory across Sales, Security, Legal, and Product, driving platform adoption and governance programs that reduced \$900M in enterprise risk for regulated environments.

- Standardized policy-to-process workflows across compliance frameworks, improving consistency and adoption across customer and internal teams.
- Owned AI/ML governance enablement as an SME; defined requirements and guidance used for ServiceNow's first enterprise AI usage policies.
- Translated regulatory and AI governance requirements into scalable operating models, dashboards, templates, and enablement playbooks used across enterprise stakeholders.

## Partner Business & Technical Alliance Director - Americas

VMware

Nov 2019 - Dec 2021 | San Francisco, CA

Led GSI and strategic partner motions across the Americas, aligning technical enablement, solution strategy, and customer outcomes with commercial execution.

- Built joint business plans and managed co-sell execution, contributing to two record-setting \$50M+ partner-led deals and sustained target overperformance.
- Aligned Product and Engineering on partner-led integrations and go-to-market plans; enabled field teams with repeatable partner playbooks (e.g., VMware on AWS with DXC).

## Partner Staff Solutions Engineer Leader

VMware

Dec 2017 - Dec 2019 | Chicago, IL

Led partner solutions engineering for VMware's largest channel partnership (CDW), focused on scalable enablement, adoption, and pipeline acceleration.

- Partnered with CDW to drive \$440M through multi-tiered routes-to-market, increasing pipeline capture by 20%, certifications by 200%, and solution adoption by 20% in the first year.
- Designed partner training, workshops, and roadmap sessions; coached architects, increasing partner-driven pipeline by 21%.

## Senior Manager, Customer Success, TAMs & Product Specialists - West Coast Regional Practice

VMware

Nov 2014 - Dec 2017 | Seattle, WA

Built and led three dispersed post-sales teams (TAMs, Customer Success, Product Specialists) delivering adoption, expansion, and customer value across a regional book of business.

- Built engagement frameworks and program deliverables aligned to customer business metrics, improving NPS by 20 points and driving operational efficiency.
- Partnered with Sales and Post-Sales leadership to align technical success with expansion and retention objectives.

## Staff Technical Account Manager / Customer Success Manager

VMware

Dec 2011 - Nov 2014 | Seattle, WA

Managed strategic enterprise accounts, aligning technical outcomes to business metrics, accelerating adoption and roadmap execution, and consistently leading services attach.
